Orange Calibrachoa

Calibrachoa

Plant care guide

SUN
Full sun

WATER
Moderate

MATURE SIZE
6–9 in. tall, 1–2 ft wide

BLOOM TIME
Spring, Summer, Fall · orange

USDA ZONE
9–11

Planting	**Spring, after frost.** Plant at the same depth as the pot. Space about 1 ft apart.
Watering	**Water at planting and keep moist until rooted;** then when the top inch is dry.
Soil & Mulch	**Loose, well-drained soil with compost.** 1–2 in. of mulch. Use potting mix in pots and baskets.
Fertilizer	**Feed every 2–4 weeks** or use slow-release at planting.
Pruning	No deadheading needed; trim back by a third in midsummer if plants get leggy.
Lowcountry Tip	Let the soil dry slightly between waterings; soggy soil causes root rot. Great in hanging baskets and pots.
