# 'Pink' Thyme

*Thymus serpyllum* 'Pink'

Plant care guide

**SUN**
Full sun

**WATER**
Low once established

**MATURE SIZE**
2–3 in. tall, 3–10 in. wide

**BLOOM TIME**
Summer · pink

**USDA ZONE**
4–9 · fits 8b/9a

| | |
|---|---|
| **Planting** | **Plant in the right season.** Same depth as the pot, in sun. Space about 8 in. apart. |
| **Watering** | **Water when the top inch is dry;** most herbs dislike wet feet. |
| **Soil & Mulch** | Well-drained soil or a container with potting mix. |
| **Fertilizer** | **Light feeding** only; too much food weakens flavor. |
| **Pruning** | **Harvest often;** pinch off flower buds on leafy herbs. |
| **Lowcountry Tip** | Salt tolerant, a good pick near the coast. Deer usually leave it alone. Harvest often to keep plants bushy. |
