Moderate

MATURE SIZE
6–10 ft tall, 5–8 ft wide

BLOOM TIME
Spring · red

USDA ZONE
4–8

Planting	**Best in fall.** Dig 2–3× as wide as the root ball; set it level or slightly high. Space about 6 ft apart.
Watering	**First 2 weeks:** soak every 2–3 days. **Established:** deep soak in dry spells.
Soil & Mulch	Acidic, well-drained, organic soil. 2–3 in. of pine straw or bark mulch.
Fertilizer	**After spring bloom,** feed lightly with azalea food. Never in late fall.
Pruning	**Prune right after spring bloom** to protect next year’s buds.
Lowcountry Tip	Afternoon shade helps; hot full sun invites lace bugs.
