TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

Banana Shrub

Magnolia figo

Plant care guide

SUN
Full sun to part shade

WATER
Moderate · drought tolerant once established

MATURE SIZE
6–15 ft tall, 6–10 ft wide

BLOOM TIME
Spring · banana-scented cream-yellow

USDA ZONE
7–10 · fits 8b/9a

Planting	**Best in fall.** Dig 2–5× as wide as the root ball, no deeper; set it level or slightly high. Sun to part shade; plant near a path for the scent.
Watering	**First months:** keep the root ball moist, not soggy. **Established:** water in long dry spells.
Soil & Mulch	Rich, acid, well-drained soil. 2–3 in. of mulch, off the stems. Ask us about Taylor's soil and mulch.
Fertilizer	**Water, not food, matters most at first.** Feed only if growth is weak or a soil test calls for it; use slow-release.
Pruning	**Little needed;** shape lightly after spring bloom.
Lowcountry Tip	Spring flowers smell like ripe bananas. Deer and salt tolerant.
