TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

'Tuscarora' Crape Myrtle

Lagerstroemia indica × fauriei 'Tuscarora'

Plant care guide

SUN
Full sun · 6+ hrs

WATER
Low once established

MATURE SIZE
18–25 ft tall, 15–18 ft wide

BLOOM TIME
Summer · coral-pink, repeats

USDA ZONE
7–9 · fits 8b/9a

Planting	**Best in fall.** Dig 2–5× as wide as the root ball, no deeper; set it level or slightly high. Full sun; give it room to reach 18-25 ft.
Watering	**First months:** keep the root ball moist, not soggy. **Established:** drought tolerant once established.
Soil & Mulch	Most soils, incl. clay and alkaline. 2–3 in. of mulch, off the stems. Ask us about Taylor's soil and mulch.
Fertilizer	**Water, not food, matters most at first.** Feed only if growth is weak or a soil test calls for it; use slow-release.
Pruning	**Never top it.** Remove suckers and crossing limbs in late winter.
Lowcountry Tip	Coral-pink summer blooms, red-orange fall color, peeling bark. Mildew resistant.
