TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

'Globosa Nana' Cryptomeria

Cryptomeria japonica 'Globosa Nana'

Plant care guide

SUN
Full sun to part shade

WATER
Moderate

MATURE SIZE
2–4 ft tall, 3–4 ft wide

BLOOM TIME
Non-flowering evergreen

USDA ZONE
6–9 · fits 8b/9a

Planting	**Best in fall.** Dig 2–5× as wide as the root ball, no deeper; set it level or slightly high. Sun to part shade; space 3-4 ft.
Watering	**First months:** keep the root ball moist, not soggy. **Established:** drought tolerant once established.
Soil & Mulch	Moist, acid, well-drained soil. 2–3 in. of mulch, off the stems. Ask us about Taylor's soil and mulch.
Fertilizer	**Water, not food, matters most at first.** Feed only if growth is weak or a soil test calls for it; use slow-release.
Pruning	**Little needed;** it keeps its round shape.
Lowcountry Tip	Soft, round dwarf conifer. Deer and salt tolerant; may bronze in winter.
