TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

'Fastigiata' Japanese Plum Yew

Cephalotaxus harringtonia 'Fastigiata'

Plant care guide

SUN
Part shade to shade

WATER
Moderate

MATURE SIZE
8–10 ft tall, 3–5 ft wide

BLOOM TIME
Non-flowering evergreen

USDA ZONE
6–9 · fits 8b/9a

Planting	**Best in fall.** Dig 2–5× as wide as the root ball, no deeper; set it level or slightly high. Part shade to shade; afternoon shade here. Space 3-4 ft.
Watering	**First months:** keep the root ball moist, not soggy. **Established:** drought tolerant once established; no soggy soil.
Soil & Mulch	Moist, well-drained soil. 2–3 in. of mulch, off the stems. Ask us about Taylor's soil and mulch.
Fertilizer	**Water, not food, matters most at first.** Feed only if growth is weak or a soil test calls for it; use slow-release.
Pruning	**Little needed;** slow growing and stays narrow.
Lowcountry Tip	Columnar yew look that takes Southern heat. Deer resistant. Poisonous if eaten.
