‘Creeping’ Thyme

Thymus serpyllum ‘Creeping’

Plant care guide

SUN
Full sun

WATER
Low once established

MATURE SIZE
2–3 in. tall, 3–10 in. wide

BLOOM TIME
Summer · pink, purple

USDA ZONE
4–9 · fits 8b/9a

Planting	**Plant in the right season.** Same depth as the pot, in sun. Space about 8 in. apart.
Watering	**Water when the top inch is dry;** most herbs dislike wet feet.
Soil & Mulch	Well-drained soil or a container with potting mix.
Fertilizer	**Light feeding** only; too much food weakens flavor.
Pruning	**Harvest often;** pinch off flower buds on leafy herbs.
Lowcountry Tip	Salt tolerant, a good pick near the coast. Deer usually leave it alone. Harvest often to keep plants bushy.
