TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

Sandankwa Viburnum

Viburnum suspensum

Plant care guide

SUN
Full sun to part shade

WATER
Low once established

MATURE SIZE
6–12 ft tall, 6–10 ft wide

BLOOM TIME
Winter to spring · pink-white

USDA ZONE
8–11 · fits 8b/9a

Planting	**Best in fall.** Dig 2–5× as wide as the root ball, no deeper; set it level or slightly high. Sun to part shade; space 5 ft for a hedge.
Watering	**First months:** keep the root ball moist, not soggy. **Established:** drought tolerant; soak in long dry spells.
Soil & Mulch	Well-drained soil. Avoid soggy spots. 2–3 in. of mulch, off the stems. Ask us about Taylor's soil and mulch.
Fertilizer	**Water, not food, matters most at first.** Feed only if growth is weak or a soil test calls for it; use slow-release.
Pruning	**Prune after flowering;** takes shearing as a dense hedge.
Lowcountry Tip	Salt tolerant. Fragrant pink-white flowers in winter and spring.
