TAYLOR'S
LANDSCAPE SUPPLY & NURSERY

# Windmill Palm

*Trachycarpus fortunei*

Plant care guide

**SUN**
Full sun to part shade

**WATER**
Low once established

**MATURE SIZE**
8–10 ft tall, 4–6 ft wide

**BLOOM TIME**
Summer · yellow, green

**USDA ZONE**
7–11 · fits 8b/9a

| | |
|---|---|
| **Planting** | **Best in late spring and summer.** Plant at the same depth it grew; never bury the trunk. |
| **Watering** | **First months:** water often to keep the root ball moist. **Established:** water in dry spells. |
| **Soil & Mulch** | Well-drained, sandy soil. 2–3 in. of mulch, off the trunk. |
| **Fertilizer** | **Palm food** with magnesium and potassium, spring and summer. |
| **Pruning** | **Remove only fully brown fronds;** no "hurricane cuts." |
| **Lowcountry Tip** | Salt tolerant, a good pick near the coast. Cold tender: cover or move it in below 32°F. Do not cut green fronds; they feed the palm. |
